REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: applicant's arguments filed 12/7/2007 distinguish over the art of record. Note in particular with regard to the applied Pidcock '628 reference that the heat shield adjacent the bulkhead [which is required in the claims] is 29A, however the illustrations for the rail are relative to heat shields 29B, hence, the Pidcock reference require even more modification to be applied. Furthermore, applications arguments are persuasive and binding regarding the references. Also the swearing behind of the Burd (7,146,815) reference is effective as the Burd reference was filed around 3 months prior to applicant's own application and the fax dates of the draft patent application clearly antedate the filing date of the Burd '815 reference. In particular Burd '815 teach the second and third heat shields with the range of the rail 74 being recessed up to 12.7 mm though the rail is illustrated as on the leading edge (col. 3, lines 8+) and the shells apertures 64 immediately adjacent the rail would appear to be positioned to direct the cooling air against the exterior surface between the leading edge and the rail. Note that the standoffs 50 are disclosed as being within 12.7 mm or more narrowly 5 mm of the stud axis (col. 3, lines 39+). Presumably the narrower preferred range is illustrated of 5 mm, in which case the drawings would appear to be anticipatory with respect to the positioning of the shells apertures 64 directing the cooling air against the exterior surface between the leading edge and the rail. Alternately, it would have been obvious to make it so. Note that Burd 6,701,714 provides the extrinsic

evidence that the second and third heat shields are substantially identical to the one adjacent the forward bulkhead (bottom leftmost portion of Fig. 1).

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Contact Information

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Ted Kim whose telephone number is 571-272-4829. The Examiner can be reached on regular business hours before 5:00 pm, Monday to Thursday and every other Friday.

The fax number for the organization where this application is assigned is 571-273-8300.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Devon Kramer, can be reached at 571-272-7118. Alternate inquiries to Technology Center 3700 can be made via 571-272-3700.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). General inquiries can also be directed to the Patents Assistance Center whose telephone number is 800-786-9199. Furthermore, a variety of online resources are available at http://www.uspto.gov/main/patents.htm
